

Western Houston Area Genealogy Society Presentation

Challenge Assignment

“Changing Your Mindset to Break Down Your Genealogical Wall”

You have a choice of which of the following items (or you can do all of them) to start on your journey.

If you have questions, please feel free to contact me at Kinsearchers@gmail.com

1. Create a timeline that represents the key dates for the ancestor just prior to your brick wall. As discussed in class you the following column headings in your timeline.

Date	Location	Document	Transcription	Questions

2. Create a complete source listing (citations) for each of your documents that you have already found. These citations don't have to be in “perfect” source listing; but you (and others) should be able to find the sources based on your listing.

3. Write a Research Question placing a person at a time, place and determining what you want to know. It should meet the Genealogical Proof Standard as discussed in class.
