

WHAGS March Program

Okay, I Have My DNA Results - Now What?

Presenter: Jill Nock, AG®

This presentation transforms the overwhelming experience of receiving DNA test results into a structured, actionable research methodology. This session moves attendees beyond ethnicity estimates to practical DNA match analysis, teaching systematic approaches for organizing thousands of matches, building hypothesis trees, and making meaningful family discoveries. Participants learn to navigate AncestryDNA, FamilyTreeDNA, and MyHeritage tools effectively while integrating third-party resources for enhanced analysis.

Jill Nock, AG®, is a professional genealogist accredited through ICAPGenSM in the U.S. Upper South. Inspired by the 1977 television miniseries *Roots*, she has been untangling family mysteries for nearly five decades. Through her business, Mountain State Genealogy, she specializes in DNA analysis, indirect evidence methodology, and transforming complex research into clearly written reports. Her presentations range from beginner-friendly introductions to advanced methodology, with particular depth in Upper South records and DNA research.
