

# **WHAGS April Program**

## ***From Research to Results: Using AI in Your Family History***

**Presenter: Andrew Redfern**

Discover practical ways AI tools can support everyday genealogical tasks, from transcription and summarization to writing, organization, image creation, and storytelling. Through real examples and demonstrations, this presentation shows how AI can enhance efficiency, creativity, and research workflows while keeping the genealogist firmly in control.

**Andrew Redfern**, based in Sydney, Australia, is a Director of the Society of Australian Genealogists, where he leads education and technology programs and special interest groups. A sought-after international presenter, Andrew has delivered highly rated sessions on digital skills, technology, and artificial intelligence for family historians at RootsTech, Legacy Family Tree Webinars, the Society of Genealogists (UK), and genealogical societies and libraries across Australia and internationally. In 2026 he was named Technology Volunteer of the Year at the Australian Not-for-Profit Technology Awards, recognizing his voluntary contribution to the NFP sector through technology.

**Thursday, April 15, 2027**

*Meet & greet at 6:30 pm*

*Program begins at 7 pm*
